

MANCAL CORPORATION

A member of the Mancal Group

POSITION POSTING

Analyst New Ventures

With over 120 years of operations in Canada, Mancal has diligently evolved from roots in the heavy construction industry to nation-building infrastructure projects and currently has operations in energy, coal, real estate, water treatment and diversified portfolio management. Mancal's entrepreneurial spirit continues to thrive through sustained investment in our operating companies as well as through strategic private equity and venture capital opportunities that foster innovation, growth and value to our stakeholders.

The growing New Ventures team is looking to add a dynamic and motivated Analyst with core values of integrity and diligence.

The position of Analyst New Ventures is an integral member of Mancal's Special Projects team. The prime objective of this position is to work with the team to analyze new investment opportunities for Mancal. The successful candidate will share the strong values, beliefs and principles of the team and possess the appropriate qualifications and skill set to perform the necessary functions required on a day-to-day basis. The ability to work collaboratively with other team members providing deep and thorough analysis combined with creative, "out of the box" thinking will be important success factors for this position. Responsibilities of the position include but are not limited to the following:

- Research industries and multiple sector verticals to analyze and seek out business opportunities;
- Conduct financial economic evaluation activities essential to the assessment of investment and business acquisition opportunities;
- Develop and maintain financial models to evaluate project economics and perform scenario analysis;
- Work with other members of the New Ventures team to communicate ideas and seek input on research areas;
- Contribute to the due diligence team by providing analysis of the businesses as well as input on deal structure;
- Assist in the preparation of internal investment memos and other documentation as part of the investment decision process; and,
- Other duties as assigned by the Vice President Special Projects and the Manager, New Ventures.

QUALIFICATIONS:

To meet the challenge of this role, we are seeking a proactive individual who embraces and welcomes new challenges. The incumbent must be adaptable, organized, energetic and enjoy working in a team environment. The ideal candidate will be highly analytical with the ability to develop detailed financial models for each investment opportunity. Candidates must have a propensity for learning new concepts quickly utilizing available resources including the skills and expertise of the other team members. Candidates must have outstanding communication and people skills, the ability to conduct research independently, a university degree in Commerce, Business Administration, Finance or related field with 5 years' experience in private investment and / or the technology space.
